- Bengali: Fluent

PROFILE SUMMARY

I'm a passionate Full Stack Developer who loves building efficient and user-friendly web applications. With hands-on experience in React, Node.js, and MongoDB, I've worked on both front-end and back-end, honing my problem-solving skills in API development and database management in my previous role. I enjoy tackling challenges, optimizing performance, and collaborating to create impactful solutions!

WORK EXPERIENCE

Regere LLP Consultancy, Chennai 2024 - PRESENT
Junior Product Hacker

- Developed and maintained a management web system for floor shops, streamlining job tracking and role assignments etc.
- Worked with Node.js, React, and MongoDB to build a scalable and efficient platform for monitoring work progress.
- Implemented and modified user-friendly dashboards to visualize job statuses, worker roles, and task completion.
- Optimized backend APIs and database queries to improve system performance and data accuracy.

Axcend Automation and Software Solutions, Bangalore Jan - May, 2024

Internship Student

- Worked on Ignition software for industrial automation, developing and optimizing SCADA systems.
- Gained hands-on experience with Node-RED, implementing data flow automation and integrating IoT solutions.
- Trained in Programmable Logic Controllers (PLCs) using software like Delta Softwares, KV STUDIO, Omron CX-One, and Siemens STEP 7 (TIA Portal) for industrial automation and control systems.
